# Overview of HRMS

Human Resource Management Systems (HRMS) or Human Resource Information Systems (HRIS) or HR Technology shape an intersection between human resource management (HRM) and information technology. It merges HRM as a discipline and in particular its basic HR activities and processes with the information technology.

# Scope of HRM

The scope of HRM is very wide:

- **Personnel aspect**-This is concerned with manpower planning, recruitment, selection, placement, transfer, promotion, training and development, layoff and retrenchment, remuneration, incentives, productivity etc.
- **Welfare aspect**-It deals with working conditions and amenities such as canteens, creches, rest and lunch rooms, housing, transport, medical assistance, education, health and safety, recreation facilities, etc.
- **Industrial relations aspect**-This covers union-management relations, joint consultation, collective bargaining, grievance and disciplinary procedures, settlement of disputes, etc.
